+ BE YOURSELF – BECAUSE THAT'S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

QUALITY ENGINEER / TEST AUTOMATION ENGINEER (M/W/D)

Klagenfurt, Vienna, Graz or Remote | full time

You have a distinct sense of quality and are looking for an interesting and varied job? Then our team is the right place for you, because we want to make our customers happy and continuously improve.

#PROFILE

With our cloud management platform "Anexia Engine," we offer our customers various self-administration cloud services. Starting with basic services such as domains and DNS, all the way through to virtual servers and big data environment solutions. As a quality engineer, your tasks will include continuous checks of the services to ensure the required product and service characteristics. You will be also responsible for quality assurance and manual testing of new services from our development department, including documentation. Your responsibilities will also include the independent execution of non-functional and functional tests. Your involvement in the planning and support of the entire service testing or validation process rounds off this very interesting and diversified field of activity.

#WANTED

- Completed technical education (HTL, TU, FH), as well as a high IT - affinity

- Several years of experience as Quality Engineer in the area of Cloud Platforms is an advantage

- Experience in manual testing of complex software products

- Experience in the planning and implementation of automated tests (API and web frontend)

- Demonstrated expertise in working with common testing frameworks, tools and libraries (e.g. Jest, Mocha, Cucumber, Selenium, Playwright)

- Javascript programming knowledge as well as JIRA and Confluence - knowledge would be a plus

- Systematic and analytical thinking and a solution-oriented, independent working method

- Distinct quality awareness and team spirit

- Very good spoken and written command of both German and English

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 40.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook for work and private use, snacks and drinks, company cars, employee events, a fun corner, ...
