

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SOFTWARE ENGINEER – NETWORK AUTOMATION (M/W/D)

Vienna Graz, Klagenfurt, Karlsruhe, Remote | full time

Are you driven by passion for and have a keen interest in innovative technology and understanding technical contexts is easy for you? If you are committed, like to work independently and have a high quality awareness, then Anexia is the right place for you.

#PROFILE

Our cloud management platform "Anexia Engine" is the central hub for the automation of our network. This network in turn provides the basis for provisioning and operating our managed and cloud services.

As Software Engineer, you will work in the interdisciplinary Network Engineering team on the improvement and further development of the automation platform. You will be involved in the entire software lifecycle of new engine features based on the requirements of our internal product development and operations teams: starting with the concept and data modelling, to planning, implementation and maintenance. You are both sparring partner and trusted advisor for our internal customers and actively participate in design of the projects assigned to you. You will work as part of a team but also increasingly independently. Even if we are not always in the same place, communication is very important to us, so we keep in touch via our voice channel, our internal chat platform and video calls.

#WANTED

- First but solid experience with OOP (e.g. PHP or Python) and SQL databases
- Solid knowledge of RESTful APIs
- Understanding of agile development workflows based on git
- Overview of building and maintaining CI/CD pipelines in conjunction with software testing and/or deployment logic
- Basic knowledge of network technology and/or operations (Juniper, Arista, Cisco or comparable)
- Very good knowledge of English, knowledge of German is an advantage

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your

position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
